

DAY 1 | 13.30 – 14.45

Mastering 5-Axis Strategy for High-Mix and Scalable Production

As manufacturers move toward high-mix production, 5-axis machining is no longer just a capability — it is a strategic foundation for flexible and future-ready production systems.

Featuring insights from leading 5-axis machine tool builders including HAAS, HERMLE, ROEDERS, and YCM.

This session explores how 5-axis platforms should be selected and deployed to support production flexibility, process integration, and long-term scalability.

What you will learn:

- How to select the right 5-axis platform for high-mix production
- Strategies for building flexible and scalable production systems
- How to prepare for automation-ready manufacturing
- Investment perspectives for long-term system development

Who should attend:

Plant managers, manufacturing engineers, and decision-makers planning future production systems
