

25 September 2026 | 13:30 – 15:30

5-Axis Manufacturing Technology Showcase

Explore leading 5-axis machining technologies from **HAAS, HERMLE, ROEDERS, and YCM**, featuring key machine capabilities, technology strengths, and practical applications for high-mix and advanced manufacturing.

Discover how different 5-axis machining technologies can help manufacturers improve production capabilities, address complex machining requirements, and build more flexible and efficient manufacturing systems.

What you will discover:

- 5-axis machining technologies from leading machine tool builders
- Key capabilities and technology highlights
- Practical applications for high-mix and complex machining
- Insights to help evaluate and select the right technology for your production needs

Who should attend:

Manufacturing managers, production engineers, machining engineers, CNC programmers, and professionals evaluating 5-axis machining technologies for current and future production requirements.
